YXR 320 OVERALL

The YXR 320 is replacing the YXR 410, but with more power. It is similar to the YXR 610, but designed for those who don't need extreme comfort, large tires, or highest level of deck durability.

When speaking to potential buyers, emphasize that the YXR 320 gives users peace of mind with its durable construction, easy maintenance, and unbeatable customer support. This mower enhances the user's ability to maintain their property—or other properties—without headaches. With the YXR 320, lawn upkeep is easy to achieve and more enjoyable.

WHO THE YXR 320 IS FOR

- Homeowners with roughly 2-7 acres, who work hard for their family and are dedicated to maintaining their property.
- Smaller-scale commercial users.

WARRANTY

- Residential use covered for 5 years or 1,000 hours
- Commercial use for 2 years or unlimited hours

THE AUDIENCE IS LOOKING FOR:

- Reliability
- High-quality construction
- Efficiency
- Unmatched support

ALL YAKTA MOWERS

FEATURES

BENEFITS

Easy maintenance

- No grease points
- Easy access to parts under the floor pan and seat
- Tensioner arm for changing the deck belt

- Saves time so users finish maintenance tasks quicker
- Less frequent and easier maintenance increases the longevity of the mower

Longer belt life from

- Idler pulley placement on the deck

- Less belt wear and tear means users won't have to stop as much in the middle of mowing to change a belt

Exceptional customer support & warranty

- Users can be confident in the quality of their mower and know they will be taken care when something happens

YXR320

FEATURES

BENEFITS

Durable construction

- 1/4" caster forks
- 1.5" x 3.0" tube frame, made from 1/8" steel
- 7-gauge deck reinforced with a 10-gauge plate

- Working with the user to easily handle tough challenges
- Users can focus on the task at hand without worrying about rugged terrain or running over objects

Powerful engines

- Carbureted engine
- 26 HP or 27 HP options
- Choice of engine brand: Kawasaki or Briggs & Stratton/Vanguard

- Power without the electronic parts of an EFI engine. Grease monkeys can fix it themselves
- If customers prefer either engine manufacturer, they can remain loyal

Comfort

- Suspension seat with up to 1.5" travel & armrests
- *Optional upgrade: Suspension seat with up to 3" travel & adjustable lumbar support

- Still provides a lot of comfort to the user to keep them feeling good during and after mowing

Hitch plate

- Though less versatile than the hitch receiver, users can do more work with one machine and be more efficient

Top-tier warranty

- 5 years / 1,000 hours residential
- 2 years / Unlimited hours commercial

- Longer than many competitors for similar mower class.

WHY CHOOSE YAKTA?

- Reliable performance
- Easy maintenance
- Long-lasting durability
- Comfort
- Style
- Good cut quality

- Quick delivery of parts & warranty service
- Warranty coverage & support
 - Industry-leading: Up to **5 years or 2,000 hours** that covers everything except batteries, blades, and tires.
 - Covers engine and transaxles for longer than Kawasaki, Briggs & Stratton, and Hydro-Gear.
